Infilink-Patch Cable Assemblies

The high performance CAT 5e Patch Cables

The Infilink CAT5e Patch Cables come in various colors and sizes. All Patch cables in this range exceed TIA/EIA-568-A requirements for 4-pair (RJ45) unshielded twisted-pair applications. Patch Cables are all of stranded wire type, supported by PVC jacket construction. To protect the RJ-45 connectors and thus increase Patch cable life cycle, booth/covers are inserted at each end.
