

# Infilink - Crimping Tool

The high performance Crimping Tool, for Networking and Telephony Applications

## Key Features

- ❑ **Single tool for Strip, Cut and Crimping of Connectors**
- ❑ **Heavy duty Steel construction**
- ❑ **Ideal for Networking and IP Telephony applications**
- ❑ **Extended Warranty**

**Infilink** Termination Tools are the essential instruments any field support installers look forward to. They are highly compact and serve multitude of purposes. All the tools are heavy duty and can sustain extensive use in the field. For your variety of network needs, **Infilink** Crimping Tool is a tool specifically designed to maintain network accessories. Our professional crimp tool IP-CT001 crimps, strips, and cuts cable for 8 and 6 position modular plugs. The crimp tool offers reliable, easy-to-use, and affordable solution to meet immediate cutting needs. Our professional ratchet crimp tool delivers convenience at a very economical price and is designed to be used with 8P8C/RJ-45, 6P6C/RJ-12 and 6P4C/RJ-11 connectors.
